

Alternative Clasps 3 – Materials List and Kit Option

The kit fee for this workshop will be between \$80 and \$110 depending on metals prices closer to the workshop. Purchasing the kit for this workshop is **optional** for those participants who already have most of the materials that are needed. Be sure to purchase extra if you plan on working larger. I will have some materials for sale in case anyone needs to purchase extra.

The items below are the approximate amount of material needed to complete 3 moderate sized projects. If you like to work larger, be sure to increase quantities accordingly.

I will go over making your own cylinders in the workshop so you can make them instead of having to make the minimum purchase of 1'.

One of the projects can be made with these 2 sizes of matching color gemstones: 4mm & 5mm
